

WAIS ZIAEY

Applied AI · LLMs · Machine Learning

ziaeywais@gmail.com · Kolbermoor, Germany · github.com/ziaeywais · US Permanent Resident — no sponsorship required

PROFILE

AI student at TH Rosenheim with a background that spans economics, field linguistics, and hands-on ML and LLM engineering. I combine technical depth — Python, RAG systems, transformer-based LLM — with strong analytical foundations from a first degree in economics and years of high-stakes professional work. I build things that work, pick up new tools quickly, speak six languages, and bring genuine intellectual curiosity to the intersection of AI systems and their real-world effects on people and organisations.

EDUCATION

B.Sc. Applied Artificial Intelligence · [Technische Hochschule Rosenheim](#) · 2024 – Present · Germany

- Core coursework: Machine Learning, Deep Learning, Natural Language Processing, Data Engineering, SQL
- Building production-quality applied projects alongside formal coursework

B.Sc. Economics · [Balkh University](#) · 2014 – 2018 · Afghanistan

- Four-year degree covering micro- and macroeconomics, statistics, and economic policy
- Provides frameworks for analysing AI's effects on labour markets and institutional structures

PROJECTS

Private Technical Assistant — RAG System · github.com/ziaeywais/Private_technical_assistant · 2024

- Fully local RAG system for querying private PDF documents via natural language — no API calls, no cloud, no data leaving the machine
- Hybrid retrieval: dense semantic (vector) search combined with BM25 keyword matching, improving recall on technical terms, part numbers, and error codes
- Relevance guardrail: the system refuses to answer rather than hallucinate when no sufficiently relevant content is found — a deliberate design choice for reliable AI behaviour
- Cross-encoder reranking and multi-turn query rewriting for better conversation quality across long sessions
- Stack: Python · LangChain · ChromaDB · Ollama · Streamlit · BM25 · nomic-embed-text

EXPERIENCE

Content Creator & Social Media Manager · [TH Rosenheim — Faculty of Computer Science](#) · Jun 2025 – Present · Germany

- Creating and managing content for the CS faculty Instagram channel
- Interviewing students and professors; developing content strategy and editorial planning

Linguist & Cultural Advisor · [Mission Essential Personnel \(MEP\)](#) · 2018 – 2021 · Afghanistan

- Simultaneous interpretation and cultural localisation across English, Pashto, and Dari/Persian in high-stakes, fast-moving environments
- Editing and proofreading of translated materials to a professional standard
- Developed strong habits around precision and reliability under ambiguity and pressure

Linguist · [Bundeswehr \(German Armed Forces\)](#) · 2019 · Balkh, Afghanistan

- Written translation and real-time interpretation at official international conferences and coordination meetings

Retail Sales Specialist · [REI](#) · Jul – Dec 2023 · Bailey's Crossroads, VA, USA

- Advised customers, handled transactions, managed inventory, and trained new staff during peak periods

Radio Producer & Host · [Nehad Radio](#) · 2014 – 2015 · Balkh, Afghanistan

- Produced and hosted programmes; scripted content, managed scheduling, and developed editorial voice

English Teacher · [Ariana Education Center](#) · 2010 – 2013 · Afghanistan

- Planned lessons, designed assessments, and tracked student progress across three years

TECHNICAL SKILLS

Languages: Python (primary), Java

ML / AI Frameworks: Scikit-learn, TensorFlow, Keras, PyTorch, LangChain, ChromaDB, Ollama

NLP & RAG: BM25, Vector Search, Cross-Encoder Reranking, Embeddings (nomic-embed-text), Retrieval-Augmented Generation

Data & Analysis: Pandas, NumPy, Matplotlib, Feature Engineering, JSON processing, SQL

Tools: Streamlit, Git, MS Office

CERTIFICATIONS

Machine Learning Specialization (3-course) · DeepLearning.AI / Stanford University · 2024

- Supervised ML: Regression & Classification · [View Certificate](#)
- Advanced Learning Algorithms: Neural Networks, Decision Trees · [View Certificate](#)
- Unsupervised Learning, Recommender Systems & Reinforcement Learning · [View Certificate](#)

Journalism Training Certificate · Tanin Journalism Training Centre · 2014

- Training in research, interviewing, and writing for a public audience

LANGUAGES

Persian/Dari (native) · **Pashto** (fluent) · **English** (fluent) · **German** (conversational) · **Hindi** (conversational) · **Urdu** (conversational)
